University of Toronto  
School of the Environment Course Syllabus  

INTRODUCTION TO ENVIRONMENTAL STUDIES  
ENV100H1-F: online synchronous, Thursdays from 17:00 to 19:00  

*Welcome to the course!*

I  
COURSE OVERVIEW

INSTRUCTOR: Simon Appolloni, PhD, simon.appolloni@utoronto.ca  
Office hours: Wednesdays 5 to 6 pm (Toronto time) or by appointment through MS Teams

LEAD TA & TA for TUT0202  
Name: Lauren Spring (Lead TA)  
Email: lauren.spring@mail.utoronto.ca  
Office: online through MS Teams by appointment

TA for TUT0201  
Name: Ellyse Winter  
Email: ellyse.winter@mail.utoronto.ca  
Office: online through MS Teams by appointment

TA for TUT5201  
Name: Mark Horsburgh  
Email: mark.horsburgh@utoronto.ca  
Office: online through MS Teams by appointment

TA for TUT5101  
Name: Rebecca McMillan  
Email: rebecca.mcmillan@mail.utoronto.ca  
Office: online through MS Teams by appointment

TA for TUT0301  
Name: Ming Fei Li  
Email: mf.li@mail.utoronto.ca  
Office: online through MS Teams by appointment

TA for TUT0201  
Name: Genevieve Crispin-Frei  
Email: gj.crispinfrei@mail.utoronto.ca  
Office: online through MS Teams by appointment

*Course logo is composite of various free-use photos from Upsplash and Freelimages.com*
COURSE OVERVIEW

COURSE DESCRIPTION:

Ecological concerns have begun to permeate our collective consciousness, and — as the current COVID-19 pandemic has shown us — so has our vulnerability as a species.

Ocean acidification, poisoned land and air, forest clear-cutting, ozone depletion, global climate change, toxic waste sites — the list goes on — all weigh heavily on our emotional and intellectual lives. We are part of the very planet we are destroying.

This course introduces students to the scope and seriousness of present ecological concerns, and explores some of the prevailing human-nature relationships undergirding both environmental degradation and sustainability.

We will carry out this exploration in part by touching on some of the major writers and classic essays in the field. Class lectures and tutorials will be online, with the class and the tutorials synchronous. All discussions will be supplemented by audiovisuals, guest speakers (pre-recorded, available on Quercus).

STUDENT LEARNING OUTCOMES:

The course is intended as a broad-based introduction to the study of the environment. The objectives of the course are:

1. to provide students with a “functional literacy” in some of the foundational ideas and concepts in the study of the environment;
2. to help students gain a greater knowledge of, and appreciation for, the sundry ecological challenges confronting the planet;
3. to create an educational atmosphere that is respectful, challenging, engaging, and informative; and
4. to help students learn to think critically about environmental issues, and to express their ideas clearly and effectively.

COURSE MATERIAL:

A course book and a collection of readings and video recordings:

The hardcopy of this book is also available at the UofT Bookstore.
Mandatory (and suggested) readings are freely available through our library system via Quercus.

Mandatory videos related to weekly readings are available on Quercus under the module section; these videos comprise of

1. “Simon’s Asides”: short clips of the instructor explaining one or more aspects related to the week’s readings
2. “Chatting about the Environment [with our authors]”: videos of interviews between instructor and author

III HOW THE COURSE IS ORGANIZED & EXPECTATIONS FOR CLASS PREPAREDNESS

This course is organized by 12 class units over a period of 12 weeks, with 3 tutorials that precede writing assignments.

Classes will be synchronous on Thursdays from 17:00 to 19:00 (Toronto time) delivered on MS Teams, using Mentimeter software to allow for participation. Due to the large class size, breakout sessions will not be available. However, the chat feature will be available, monitored by the Lead TA throughout the class; students can ask questions concurrently as the class is running. At the half-way point in class, there will be a brief pause where questions raised in the chat section to the TA will be shared with the instructor, who can then address the questions in the second half of the class (if the TA has not already addressed the question in chat). Students will be asked to send questions between lectures via email, and their questions will be addressed in subsequent lectures.

The recorded lectures will be made available on Quercus in video format, complete with slides by noon the following day. Class recordings will be available for 4 weeks maximum, so it is best not to get behind should you miss a class or wish to revisit a class.

OFFICE HOURS

The instructor and the TAs all offer weekly office times either by appointment or at a set time where students can drop in for extra help in the course. Please consult the times, procedures and dates for each team member, found on the first page of this syllabus.

HOW MUCH TIME SHOULD I DEVOTE TO THIS COURSE?

Over the course of each week, you are expected to spend on average 6 to 8 hours weekly for each class digesting/viewing all readings and required videos, attending class and responding to discussions/quizzes. You are expected to attend all the tutorials, and complete and submit all assignments according to the due dates/deadlines. It is strongly advised to complete all readings the week they are assigned and not to fall behind.
QUERCUS

Students are responsible for keeping informed about the course and its content via the course website on Quercus (https://q.utoronto.ca/) and syllabus (found on Quercus). All documents and resources required for the course, except for the course textbook, will be accessible through this website.

LECTURE OUTLINE

*FES* denotes the course book which you will have to purchase (*For Earth’s Sake: Toward a Compassionate Ecology*, by Stephen Scharper, edited by Simon Appolloni. Toronto: Novalis, 2013). All other required readings and videos are available on Quercus.

**For those with e-book versions of FES, when only part of a given chapter I required reading, readers are prompted with explanations of when and where to start and stop reading.**

**PART 1: Revealing what we’ve been doing to the planet and to one another**

**Class 1 (9 Sep)**

*We go over course requirements and goals and begin the semester by introducing dimensions of a defining term for our time: the ‘Anthropocene’.*

Required readings/viewings:

- Class 1 Lecture Welcome video
- “We All Lose in the War against Nature,” by Stephen Scharper, pp. 63-64, in *FES*.

Suggested reading:

**Class 2 (16 Sep)**

*From its earliest (and heroic) messenger, Rachel Carson, to contemporary scientific frameworks all sounding environmental alarm bells, we continue to learn about this epoch of humans altering nature through chemicals.*

Required readings/viewings:

· “Nature’s Dangerous Decline ‘Unprecedented’ Species Extinction Rates ‘Accelerating’” Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) Media Release:  
· “Simon’s Aside on Silent Spring” video  
· “Chatting about the Environment with Stephen Scharper” video  

Suggested reading:  

➢ First quiz released 16 September – closes 18 September at 11:59 pm  
➢ Last day to enrol or accept invitation to Fall course  

Class 3 (23 Sep)  
We continue to learn about the Anthropocene by examining the state of the world’s fresh water, which is fundamental to all life, and the world’s oceans which – as Mitchell tells us – are “our main life-support system, controlling the planet’s temperature, climate and key chemical cycles.” Required reading/viewing:  
· United Nations – Plastic Ocean video  
· “The Agriculture/Water Nexus – Chapter 5,” pp. 86-89 [for ebooks, read from the beginning of the chapter 5 until the just before the section that reads: "A Brief History of Agriculture, from Prehistory to the Produce Aisle"], by Christiana Zenner, in Just Water: Theology, Ethics, and Fresh Water Crises (2018 Revised Edition)  
· “Simon’s Aside on Oceans” video  
· “Chatting about the Environment with Alanna Mitchell” video  

➢ First writing assignment released 20 September (due 4 October)  
➢ First Tutorials on Monday, 20 September (make sure you are registered!)  

Class 4 (30 Sep)  
We look at climate change and its effect on the land and its soil and we learn who loses most in our war against nature. Required reading/viewing:  
· Climate Chaos in the South - The Victims' Story, video by National Film Board of Canada, 2010  
· “Climate Change and Land: An IPCC Special Report on climate change, desertification, land, degradation, sustainable land management, food security, and greenhouse gas fluxes in terrestrial ecosystems (Summary for Policy Makers)”; Focus on the bullet points in Section A only, pages 7-19 and do not worry if the graphs are difficult to grasp (great
if you can!); part of this exercise is to introduce you to engaging IPCC reports:
- “It’s Time We Stopped Treating Soil Like Dirt,” The Guardian YouTube Network video:
- “Simon’s Aside on Paradigm Shifts” video
- Chatting about the Environment with John Robinson

Suggested reading:

➢ Second quiz released 30 September – closes 2 October at 11:59 pm

PART 2: Analyzing our current context

➢ First writing assignment due 4 October

Class 5 (7 Oct)
Building from last week’s class, we begin our analysis by examining what Scharper calls ‘unequal ecologies’, understanding the unmistakable connection between what we do to Earth systems and to one another.

Required readings/viewings:
- “Option for the Poor and the Option for the Earth: Toward a Sustainable Solidarity,” by Stephen Scharper, pp. 154-165 [for ebook readers: from beginning up to subsection entitled “Option for the Poor and a Critique of Modernity] & 170-171 [this refers to the conclusion], in FES.
- “The Poor Bear Burden of Environmental Hazards,” pp. 41-43, by Stephen Scharper, in FES.
- “Simon’s Aside on Unequal Ecologies” video
- “Chatting about the Environment with Stephen Scharper-redux” video

➢ 11 October: Happy Thanksgiving!

Class 6 (14 Oct)
“The devastation of the planet that we are bringing about is negating some hundreds of millions, even billions, of years of past development of the earth,” Thomas Berry tells us; this is not the result simply of cultural, historical changes. Perhaps one of the reasons for this mess is our mistaken understandings about the human within biotic and urban communities.

Required readings/viewings:

• “From Community to Communion: The Natural City in Biotic and Cosmological Perspective,” by Stephen Scharper, the whole chapter, pp. 135-153, in FES.

• “Simon’s Aside on the Expansionist Circle of Ethics” video

➢ Third quiz released 14 October – closes 16 October at 11:59 pm
➢ Second writing assignment released 18 October (due 1 November)
➢ Second tutorial 18 October for second writing assignment

Class 7 (21 Oct)
Considering that you (and I) have spent most of our lives in this all-consuming world of education, does it not seem odd that we never (or rarely) discuss what it is all for?
Required readings/viewings:

• “Simon’s Aside on Why Are You’re here Studying at University?” video

• “Chatting about the Environment with David Orr” video

Class 8 (28 Oct)
Ecofeminism critiques patriarchal violence, capitalism, colonialism, and gender discrimination. Finding parallels between the oppression of nature and the oppression of gender, it offers insight into fostering liberation for women and the natural world.
Required readings/viewings:

• “Simon’s Aside on Monoculture of the Mind” video

• “Chatting about the Environment with Heather Eaton” video

Suggested reading:

➢ Fourth quiz released 28 October – closes 30 October at 11:59 pm

PART 3: Redeeming creative spaces for new life-giving relationships
Second writing assignment due 1 November

Class 9 (4 Nov)
“Most of us sense that the Earth is more than a sphere of rock with a thin layer of air, ocean, and life covering the surface,” James Lovelock tells us, adding, “We feel at home here....” What might happen if we actually think this way?
Required readings/viewings:
  · “Simon’s Aside on Understanding Gaia the Science” video
  · “Chatting about the Environment with ‘James Lovelock’” video

November 8, last day to cancel F courses
Fall Reading Week, 8-12 November; no class Thursday 11 November

Class 10 (18 Nov)
No other discipline – than economics – dictates so pervasively and so incessantly how we conduct our lives every day; perhaps it’s time to challenge the ‘gods of the market economy’ that we have created.
Required readings/viewings:
  · “Reverend Billy’s Crusade against the ‘Shopocalypse’, pp. 30-32, in FES.
  · “Simon’s Aside on Consumerism” video
  · “Chatting about the Environment with Peter Victor” video
Suggested Reading:

Fifth quiz released 18 November – closes 20 November at 11:59 pm
**Class 11 (25 Nov)**

*Thomas Berry stresses that our destructive patterns of living cannot be critiqued effectively or sufficiently from within the traditional humanist ethics or religions, as these have arisen out of a cosmological perspective that places the human being at the center of ethical deliberations, separate from the natural world. Here we explore Indigenous traditions which have allowed Indigenous peoples, in large measure, to perceive a numinous presence within nature and thereby recognize that each aspect of the planet has its own inner life or subjectivity.*

Required readings/viewings:

- “Simon’s Aside on Moving away from Anthropocentrism” video
- “Chatting about the Environment with Deborah McGregor” video

Suggested Reading:

- “Moment Two & Moment Three,” (Remainder of chapter “The Ecological Crisis”) by Stephen Scharper, in *FES*.

➢ Final writing assessment released 29 November (due 14 December)
➢ Third tutorial 29 November for final writing assessment

**Class 12 (2 Dec)**

*To wrap things up, we will do a review of the course, but not before reminding ourselves of our human frailties, the complexity of the world, and how much we really can (and cannot) know about it (at least anytime soon).*

Required readings/viewings:

- “The Gulf of Mexico Oil Spill: Would the Precautionary Principle Have Averted This Disaster?” by Stephen Scharper, pp. 115-120, in *FES*.
- “Simon’s Aside on Living Well, Not Better” video
- Chatting about the Environment with Seth Klein

Additional readings that might be helpful for final assessment:

- **Sixth quiz released 2 December – closes 4 December at 11:59 pm**
- **Final writing assessment period 10 – 21 December**

The 16-year-old Swedish climate change activist Greta Thunberg began protesting outside the Swedish parliament in August 2018 when she was 15 about the need for immediate action to combat climate change. She has since galvanized young people to become activists for the environment. On 15 March 2019, over a million students in 112 countries around the world joined her call in striking and protesting.

### IV EVALUATION/GRADING SCHEME

</table>

#### Tutorials, times and objectives

There will be three tutorials on Monday, 20 September, Monday, 18 October, and Monday, 29 November, all synchronous via MS Teams:

- **TUT0101** 09:00 — 10:00 Ellyse Winter
- **TUT0201** 10:00 — 11:00 Genevieve Crispin-Fei
- **TUT0202** 10:00 — 11:00 Lauren Spring
- **TUT0301** 14:00 — 15:00 Ming Fei Li
- **TUT5101** 19:00 — 20:00 Rebecca McMillan
- **TUT5201** 20:00 — 21:00 Mark Horsburgh

- Tutorials are designed to help you review the course material, and to draft your assignments and improve your essay writing for assessments. **Experience has shown that students who attend and participate in writing exercises offered during these sessions do significantly better in the course than those who do not.**
- TAs will be able to see on MS Teams which students attended each of the 3 sessions (and for how long) after the tutorial wraps up. They will then award 3% per tutorial (for a total of 9) to each student who was present for the session. If the student simply shows and leaves without remaining for any meaningful period of time (and without excuse), the TA will be able to apply only a 2 or 1% mark accordingly.
If, for technical/geographical reasons, you are unable to attend a session, or you run into technical challenges, it is **your responsibility to write to your TA within 12 hours** to explain why you were unable to attend the session or only partially. They will then offer you a writing assignment to make up the missed tutorial attendance grade. The onus is **on you to reach out to your TA**. If they do not hear from you within 12 hours after you miss all or part of a tutorial session, you will automatically be given a grade of 0 for the session.

**Participation in discussion board**
- Each of the 12 weeks, there will be a question posted on discussion board on Quercus based on an issue raised in either Simon’s Aside video or Chatting about the Environment [with one of our authors] video.
- While students are welcome – and encouraged – to reply every week and often, to all questions, **students will be required to respond once to any 4 of the 12 weekly questions** posed (or to another student’s response to that question) throughout the course. Students are also encouraged to read fellow student responses to learn what others are thinking.
- A mark of 1% for participation will be assigned (for a total of 4).
- While there is no right or wrong response, and responses should not be long; succinctness is best (as short as a few sentences), they should demonstrate evidence of engagement with the issue at hand. Responses will be monitored by TAs.

**Reading comprehension quizzes**
- Each week of the course, there will be a quiz (each with 10 multiple choice or true or false questions), based on the course readings for the two classes that period and the syllabus. These will be automatic (from Quercus) and available within a limited time period. Some questions have multiple answers, so read the question carefully.
- The quizzes appear every week on Thursdays - running for two days - as a set of 10 questions for which the student will have 30 minutes to answer.
- Each quiz is worth 3% of total marks. Students are welcome to do all six, but **only the top four with the highest scores done will count toward their mark** (4 quizzes x 3% = 12%).
- Students are free – and indeed encouraged – to have their readings open and available; because they have approximately 3 minutes or so for each question, it is advisable that they do readings **before** starting the quiz.
- Correct answers will be made available automatically on the following Monday.
- The schedule is as follows:
  - Quiz # 1 (classes 1 & 2) available 16 September, closes 18 September, 11:59 pm
  - Quiz # 2 (classes 3 & 4) available 30 September, closes 2 October, 11:59 pm
  - Quiz # 3 (classes 5 & 6) available 14 October, closes 16 October, 11:59 pm
  - Quiz # 4 (classes 7 & 8) available 28 October, closes 30 October, 11:59 pm
  - Quiz # 5 (classes 9 & 10) available 18 November, closes 20 November, 11:59 pm
  - Quiz # 6 (classes 11 & 12) available 2 December, closes 4 December, 11:59 pm
First writing assignment
- Based on the course material covered in readings, videos and class lectures from the first 4 classes of class, and using a set essay format for engaging the readings (to be discussed within tutorials), students will write a 550-word [+/- 10%] essay-like response to a given reading. Guidance will be given from the TAs. To be handed in using University’s plagiarism detection tool through Quercus.
- Marking rubric found in assignment sheet
- Released 20 September; due 4 October
- Worth 15% of total mark
- A penalty of 1%/day for papers late by one day, 2%/day for papers late by two days, 3%/day for papers late three days until the fourth day onward, where a late penalty of 4%/day will take effect.
- For the first writing assignment (only), in order for the TA to mark it, the student must complete and sign the Academic Integrity Statement and Checklist available on Quercus, inserting the signed sheet INTO the assignment. See section on academic integrity below.

Second writing assignment
- Based on the course material covered in readings, videos and class lectures from the first 8 classes of the course, and using a set essay format for engaging the readings (to be discussed within tutorials), students will write a 600-word [+/- 10%] essay-like response to given readings. Guidance will be given from the TAs. To be handed in using University’s plagiarism detection tool through Quercus.
- Marking rubric found in assignment sheet
- Released 18 October; due 1 November
- Worth 25% of total mark
- A penalty of 1%/day for papers late by one day, 2%/day for papers late by two days, 3%/day for papers late three days until the fourth day onward, where a late penalty of 4%/day will take effect.

Final writing assessment
- Based on the course material covered in readings, videos and class lectures from the whole course, and using a set essay format for engaging the readings (to be discussed within tutorials), students will write one 1,000 - 1200 word essay. Guidance will be given from the TAs. To be handed in using University’s plagiarism detection tool through Quercus.
- Released: 29 November
- Due: 14 December

About 8 million metric tons of plastic are thrown into the ocean annually.
Jenna R. Jambeck et al., “Plastic waste inputs from land into the ocean,” Science. 13 Feb 2015: 768-
· Worth 35% of total mark
· A penalty of 1%/day for papers late by one day, 2%/day for papers late by two days, 3%/day for papers late three days until the fourth day onward, where a late penalty of 4%/day will take effect.

Note:
   i. If an unexpected technical issue occurs with a university system (e.g., Quercus services, network outage) that affects availability or functionality, it may be necessary to revise the timing or weighting of the assessments above. Every effort will be taken to ensure fairness.
   ii. The late penalty/day is calculated on the value out of 100. Hence, for example, a mark of 16/20 (tabulated in points) translates into a mark of 80%; if 1 day late, the student receives only 79%, which translates into 15.8/20; if 3 days late, the students receives a 3 x 3% penalty [-9%], so 14.2/20; if a student hands in a paper 6 days late, the penalty is 6 x 4% [-24%], so the mark of 16/20 above becomes 11.2/20.

CRITERIA FOR EVALUATING WORK
Full criteria for evaluating work for first, second and final writing assignments/assessment will be discussed in tutorials and available on Quercus. Broadly, students should be able to convey, and analyze course materials with precision and accuracy, and with clear focus; their writing style should be clear and unambiguous, and their mechanics free of grammatical errors, spelling or major factual errors.

V COURSE POLICIES

ACCESSIBILITY
The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the (online) classroom or course materials, please contact Accessibility Services as soon as possible: https://studentlife.utoronto.ca/task_levels/accessibility-andacademic-accommodations/

The University is committed to developing an accessible learning environment that provides reasonable accommodations to enable students with disabilities to meet the essential academic requirements of the University’s course and programs. Please be aware of the academic accommodation policies and resources page on the Provost’s website: https://www.viceprovoststudents.utoronto.ca/students/academic-accommodation/

Accessibility Remote/Online Learning information and resources are available at:https://studentlife.utoronto.ca/covid-19-accessibility-faqs/

AUDIOVISUAL MATERIAL AND RECORDINGS
This course, including your participation, will be recorded on video and will be available to students in the course for viewing remotely and after each session.
Course videos and materials belong to your instructor/TA, the University, and/or other source depending on the specific facts of each situation, and are protected by copyright. In this course, you are permitted to download session videos and materials for your own academic use, but you should not copy, share, or use them for any other purpose without the explicit permission of the instructor.

For questions about recording and use of videos in which you appear please contact your instructor.

ACADEMIC INTEGRITY

“The University of Toronto is committed to the free and open exchange of ideas, and to the values of independent inquiry. Academic integrity is fundamental to our university community’s intellectual life. What does it mean to act with academic integrity? U of T supports the International Center for Academic Integrity’s definition of academic integrity as acting in all academic matters with honesty, trust, fairness, respect, responsibility, and courage. For an Indigenous perspective on these values, you might also like to read more about the Seven Grandfathers approaches to academic integrity.

In our Code of Behaviour on Academic Matters, the University has identified academic offences that run counter to those values, and that are in opposition to our mission to create internationally significant research and excellent academic programs. This code outlines the behaviours that constitute academic misconduct, the processes for addressing academic offences, and the penalties that may be imposed. You are expected to be familiar with the contents of this document. Potential offences include, but are not limited to:

In papers and assignments:
- Using someone else’s ideas or words without appropriate acknowledgement.
- Submitting your own work in more than one course without the permission of the instructor.
- Making up sources or facts.
- Obtaining or providing unauthorized assistance on any assignment (this includes working in groups on assignments that are supposed to be individual work).

On tests and exams:
- Using or possessing any unauthorized aid, including a cell phone.
- Looking at someone else’s answers.
- Letting someone else look at your answers.
- Misrepresenting your identity.
- Submitting an altered test for re-grading.

Misrepresentation:
- Falsifying or altering any documentation required by the University, including (but not limited to) doctor’s notes.
- Falsifying institutional documents or grades.

All suspected cases of academic dishonesty will be investigated following the procedures outlined in the Code of Behaviour on Academic Matters. If you have any questions about what
is or is not permitted in this course, please do not hesitate to contact me. If you have questions about appropriate research and citation methods, you are expected to seek out additional information from me or other available campus resources like the College Writing Centres (https://writing.utoronto.ca/writing-centres/arts-and-science/), the Academic Success Centre, or the U of T Writing Website.”

**Course instructors can get further guidance on academic integrity from the website of the Centre for Teaching Support and Learning at:**
https://teaching.utoronto.ca/teachingsupport/strategies/a-i/ and also at:
https://www.artsci.utoronto.ca/current/academic-advisingand-support/student-academic-integrity

You can access important Academic Integrity forms, including the one used to submit cases of suspected academic offence to the Director, Steve Easterbrook (not to the Academic Associate Director or Undergraduate Advisor), at:
https://www.artsci.utoronto.ca/facultystaff/internal-resources/academic-integrity-resources.

**USE OF UNIVERSITY PLAGIARISM DETECTION TOOL**
Normally, students will be required to submit their course essays to the University’s plagiarism detection tool for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the tool’s reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University’s use of this tool are described on the Centre for Teaching Support & Innovation web site (https://uoft.me/pdt-faq)

**ONLINE COMMUNICATION POLICY**
Please use email as a professional tool of correspondence that communicates in a respectful manner. **Allow up to 48 hours for TAs and instructor to respond.** Always place the course name and number in the subject heading of your email. Directly address the instructor or TA by name, and always provide your own (full) name as part of your message.

When emailing your instructor or TA, make sure you write "ENV100" in the subject line. All non-emergency questions should go on the COURSE DISCUSSION BOARD on Quercus; The TAs will regularly check the board and will answer your questions there. Remember to read through the discussion board and course announcements to avoid redundancy. Non-emergency emails that are better directed to the discussion board will not receive a reply. The same applies for emails without the course code in the subject. As with email, all communication on the discussion board will follow the same etiquette as outlined above.

**MEDICAL CERTIFICATE & DOCUMENTATION SUPPORTING EXTENSIONS**
With the presence of Covid-19, procedures regarding health and wellness and this virus have changed from normal procedures. Students are directed to consult the COVID-19 Information for University of Toronto Students at https://www.viceprovoststudents.utoronto.ca/covid-19/

For this year, the University has announced **that students will not require a Verification of Illness (VOI) form.** The updated FAQ for students reads as follows:
What should you do if I can’t attend class (in-person or remote) and it is affecting my academic work? Students who are absent from class for any reason (e.g., COVID, other illness or injury, family situation) and who require consideration for missed academic work should report their absence through the online absence declaration. The declaration is available on ACORN under the Profile and Settings menu. Students should also advise their instructor of their absence.

**NOTE:** there will be no make up for missed quizzes or participation in discussion board questions.

**MARKING OF ASSIGNMENTS**

Should you wish your test paper to be remarked for a miscalculation of marks, simply contact the TA. For concerns about the marking of the content of the writing assignments, please discuss the matter first with the TA who marked your work. For marking of content, you may not simply request that the whole work be re-examined merely because you feel the mark is too low. You must specify to the TA exactly which part(s) require re-examination, outlining coherently reasons why the section deserves a re-examination. Please note that in re-examining the work, the TA is free to lower the mark if she/he deems it merits it. If unsatisfied with your mark, it is only after you have met and discussed your work with the TA who marked your work that you can come to the instructor with your concerns.

---

**What do you think?**

Václav Havel, Czech playwright, essayist, poet, dissident and president of Czechoslovakia, 1989-92, wrote: “Hope is not the conviction that something will turn out well, but the certainty that something makes sense, regardless of how it turns out.”

Where do you think we might locate hope today?

---

**VI TECHNOLOGY REQUIREMENTS**

This course requires the use of computers, and of course sometimes things can go wrong when using them. You are responsible for ensuring that you maintain regular backup copies of your files, use antivirus software (if using your own computer), and schedule enough time when completing an assignment to allow for delays due to technical difficulties. Computer viruses, crashed hard drives, broken printers, lost or corrupted files, incompatible file formats, and similar mishaps are common issues when using technology, and are not acceptable grounds for a deadline extension.

Students should note that the web browser best suited to work – without glitches – with Quercus, MS Teams, at least in theory, is CHROME. If experiencing technical troubles, try switching browsers first.
If students have more questions, please consult the U of T Vice-Provost site below for information regarding student technology requirements:
https://www.viceprovoststudents.utoronto.ca/covid-19/tech-requirements-online-learning/

Please also consult the site below for information regarding online learning:
https://onlinelearning.utoronto.ca/getting-ready-for-online/

VII SUPPORT

First year in university is demanding and it can be disorienting and daunting. Student experience can be even more daunting with everything online and the course instructor and TAs working remotely. **Know that while academic standards will remain high, our ENV100 team of instructor and TAs are willing to help you. Reach out!!**

ADDITIONAL SERVICES and SUPPORT

The following are some important links to help you with academic and/or technical service and support

- General student services and resources at Student Life
- Full library service through University of Toronto Libraries
- Resources on conducting online research through University Libraries Research
- Resources on academic support from the Academic Success Centre
- Learner support at the Writing Centre
- Information for Technical Support/Quercus Support

VIII SUGGESTIONS FOR FURTHER READING & VIEWING

*The following books and/or resources can be found normally through our library system; at this time, however, some materials might not be available due to the Covid-19 restrictions. Please check online.*

**Economics/commerce and environment**

Environmental Resilience

Frankl, Victor E. Man’s Search for Meaning. Boston: Beacon Press, 2006 (original publication 1959)

Ethics and environment

Religion and environment

Appolloni, Simon. “Wondering about Wonder as a Possible Antidote to Our Violence against Earth.” In Advancing Nonviolence and Social Transformation: New
Perspectives on Nonviolent Theories. Edited by Heather Eaton and Lauren Michelle Levesque, 265-280. Sheffield, UK.

Sustainability and environment

**Science and environment**

**Worldviews and environment**

**Film and Environment**

The following is a short list of good movies I have come across that impart one or more themes tied to the environment, all which provoke deeper reflection.

- The Truman Show, US 1998, dir. Peter Weir
The China Syndrome, US 1979, dir. James Bridges
Avatar, US 2009, dir. James Cameron
Babette’s Feast, Denmark 1987, dir. Gabriel Axel
WALL-E, US 2008, dir. Andrew Stanton
The Grapes of Wrath, 1940, dir. John Ford

Documentaries and Environment
Documentaries on the environment are too numerous to list here. And not all, despite their intentions, are completely factual, and some have dated data. It is wise to approach all documentaries with a hermeneutic of suspicion. Below are samples of documentaries I have found worthwhile (I used the IMDB tag lines); let me know of others you found worth a look! The list is not, by far, comprehensive. Some might be of interest to you because of the tone concerning the environment they convey.

Anthropocene: The Human Epoch, directed by Jennifer Baichwal and Edward Burtinsky (2018); filmmakers travel to six continents and 20 countries to document the impact humans have made on the planet.
Baraka, directed by Ron Fricke (1992); a collection of expertly photographed scenes of human life, religion and how we interact with life.
Before the Flood, directed by Fisher Stephens (2016); Leonardo DiCaprio looks at how climate change affects our environment and what society can do to prevent the demise of endangered species, ecosystems and native communities across the planet.

[The] Biggest Little Farm, directed by John Chester (2018); documentarian John Chester and his wife Molly work to develop a sustainable farm on 200 acres outside of Los Angeles.
[The] Corporation, directed by Mark Achbar and Jennifer Abbott (2003); documentary that looks at the concept of the corporation throughout recent history up to its present-day dominance.
Food Inc., directed by Robert Kenner (2008); an unflattering look inside America's corporate controlled food industry.
Kiss the Ground, directed by Joshua Tickell and Rebecca Harrell Tickell (2020); a revolutionary group of activists, scientists, farmers, and politicians band together in a global movement of "Regenerative Agriculture" that could balance our climate, replenish our vast water supplies, and feed the world.

[The] New Corporation: The Unfortunately Necessary Sequel, directed by Jennifer Abbott and Joel Bakan (2020); exposes how companies are desperately rebranding as socially responsible - and how that threatens democratic freedoms.
There's Something in the Water, directed by Elliott Page (2019); an example of environmental racism in Canada where Black and First Nations in Nova Scotia suffer disproportionate effect of environmental pollution.
This Changes Everything, directed by Avi Lewis (2015); narrated by Naomi Klein, this video looks at seven communities around the world with the proposition that we can seize the crisis of climate change to transform our failed economic system into something radically better.
[The] Race to Save the World, directed by Joe Gantz (2021); a documentary film following the lives of passionate and determined climate scientists, activists, and concerned citizens who are working to shift the world towards a clean energy future and to fight climate change before it's too late.

Sharkwater Extinction, directed by Rob Steward (2018); Filmmaker Rob Steward exposes the illegal fishing industry that threatens the survival of the world's sharks.

Water Warriors, directed by Michael Premo (2017); when an energy company begins searching for natural gas in New Brunswick, Canada, indigenous and white families unite to drive out the company in a campaign to protect their water and way of life.
