

Forestry MFC, MScF, PhD

School of the Environment: Collaborative Specialization in Environment & Health (CSEH)

Below you will find the requirements for students in the Forestry department (MFC, MScF, PhD) who are completing a Collaborative Specialization in Environment & Health. Although this document will provide you with guidance for completing the specialization, note that the <u>School of Graduate Studies Calendar</u> is the authoritative source for all degree requirements.

Master of Forest Conservation (MFC)

MFC students complete a total of 7.5 FCEs. Students enrolled in the Collaborative Specialization in Environment & Health must have 30% of their coursework (2.0 FCE) count towards the CSEH and complete the following requirements:

- FOR3007H provided there is an environment & health theme or component. *Upon completion of the <u>placement</u> students shall submit a completion letter to the School of the Environment Graduate Administrator.*
- FOR3008H provided there is an environment & health theme or component. A copy of <u>the final</u> <u>research paper</u> must be submitted to the School of the Environment Graduate Administrator prior to convocation.
- ENV4001H: Graduate Seminars in Environment and Health (0.5 FCE).
- 0.5 FCE elective from the list of <u>CSEH approved courses</u>.

Master of Science in Forestry (MScF)

MScF students enrolled in the Collaborative Specialization in Environment & Health complete the following requirements:

- ENV4001H: Graduate Seminars in Environment and Health (0.5 FCE).
- 0.5 FCE elective from the list of <u>CSEH approved courses</u>.
- Thesis written on an environment & health related topic. A digital copy of the <u>final thesis</u> must be submitted to the School of the Environment prior to convocation.

It is recommended that each thesis committee will require a supervisor from the student's home department and at least one other member from another graduate unit, both of whom are also members of graduate faculty in the School of the Environment.

Doctor of Philosophy (PhD)

PhD Forestry students enrolled in the Collaborative Specialization in Environment & Health complete the following requirements:

- ENV 4001H: Graduate Seminars in Environment and Health (0.5 FCE)
- One elective (0.5 FCE) from the <u>approved CSEH course list</u>

- Complete a thesis on a theme within environment and health. Normally, the thesis committee
 will include a supervisor from the student's home department who holds a graduate faculty
 membership (GFM) in the School of the Environment. If the student's primary thesis supervisor
 does not hold a GFM in the School of the Environment, the School's Director will either initiate
 the process of assigning a GFM to the primary supervisor or review the composition of the thesis
 committee to ensure it has appropriate expertise. A digital copy of the <u>final thesis</u> must be
 submitted to the School of the Environment prior to convocation.
- All PhD students are required to give an oral presentation of their doctoral research as part of the School's Environment Research Day, which is held once per year in the Spring.
