

Geography MA, MSc, PhD

School of the Environment: Collaborative Specialization in Environment & Health (CSEH)

Below you will find the requirements for students in Geography (MA, MSc, or PHD) who are completing a Collaborative Specialization in Environment & Health. Although this document can provide you with guidance for completing the specialization, note that the [School of Graduate Studies Calendar](#) is the authoritative source for degree requirements.

Master of Arts (MA) and Master of Science (MSc)-Thesis Option

MA and MSc students in the thesis option enrolled in the Collaborative Specialization in Environment & Health complete the following requirements:

- ENV4001H: Graduate Seminars in Environment and Health (0.5 FCE)
- One elective (0.5 FCE) from the [CSEH course list](#). *Students are strongly encouraged to enrol in a course that is cross-listed between Geography and the CSEH [course list](#) such as GGR1422H, JGE1425H, or JPG1428H.*
- Thesis written on an environment and health topic or include an environment and health component. *A digital copy of the [final thesis](#) must be submitted to the School of the Environment prior to convocation.*

It is recommended that each thesis committee will require a supervisor from the student's home department and at least one other member from another graduate unit, both of whom are also members of graduate faculty in the School of the Environment.

Master of Arts (MA) and Master of Science (MSc) Major Research Paper Option

MA and MSc students in the major research paper option enrolled in the Collaborative Specialization in Environment & Health complete the following requirements:

- ENV4001H: Graduate Seminars in Environment and Health (0.5 FCE)
- One elective (0.5 FCE) from the [CSEH course list](#). *Students are strongly encouraged to enrol in a course that is cross-listed between Geography and the CSEH [course list](#) such as GGR1422H, JGE1425H, or JPG1428H.*
- Major Research Paper (GGR1100Y) written on an environment and health topic or include an environment and health component. *A digital copy of the [final paper](#) must be submitted to the School of the Environment prior to convocation.*

Doctor of Philosophy (PhD)

PhD students enrolled in the Collaborative Specialization in Environment & Health complete the following requirements:

- ENV4001H: Graduate Seminars in Environment and Health (0.5 FCE)

SCHOOL OF THE ENVIRONMENT

- One elective (0.5 FCE) from the [CSEH course list](#). *Students are strongly encouraged to enrol in a course that is cross-listed between Geography and the CSEH [course list](#) such as GGR1422H, JGE1425H, or JPG1428H.*
- Complete a thesis on a theme within environment and health. Normally, the thesis committee will include a supervisor from the student's home department who holds a graduate faculty membership (GFM) in the School of the Environment. If the student's primary thesis supervisor does not hold a GFM in the School of the Environment, the School's Director will either initiate the process of assigning a GFM to the primary supervisor or review the composition of the thesis committee to ensure it has appropriate expertise. *A digital copy of the [final thesis](#) must be submitted to the School of the Environment prior to convocation.*
- All PhD students are required to give an oral presentation of their doctoral research as part of the School's Environment Research Day, which is held once per year in the Spring.
