School of the Environment: Collaborative Specialization in Environment & Health (CSEH)

Below you will find the requirements for students in the Music MA, MMus, or PhD who are completing a Collaborative Specialization in Environment & Health. Although this document can provide you with guidance for completing the specialization, note that the [School of Graduate Studies Calendar](#) is the authoritative source for degree requirements.

Master of Arts (Ethnomusicology, Music Education, Music and Health Sciences, Musicology, Music Theory),

Students in the **MA in Ethnomusicology** program complete the following requirements:

- ENV4001H: *Graduate Seminars in Environment and Health* (0.5 FCE)
- 0.5 FCE electives from a combination of [CSEH approved courses](#). Courses (including Special Topics) that have an environment and health focus but are not included in the School's approved list can be counted as an elective, pending approval from the Graduate Associate Director.
- For students who complete MUS1002H, the practicum should have an environment and health focus. *A completion letter must be submitted to the School of the Environment prior to convocation.*

Students in the **MA in Music Education** complete the following requirements:

- ENV4001H: *Graduate Seminars in Environment and Health* (0.5 FCE)
- One elective (0.5 FCE) from the [CSEH course list](#).
- For students who complete MUS2990Y the paper should include an environment and health component. *A final copy of the paper must be submitted to the School of the Environment prior to convocation.*

Students in the **MA in Music and Health Sciences** program complete the following requirements:

- ENV4001H: *Graduate Seminars in Environment and Health* (0.5 FCE)
- One elective (0.5 FCE) from the [CSEH course list](#).
- For students who complete MUS7407H, the practicum should have an environment and health focus. *A completion letter must be submitted to the School of the Environment prior to convocation.*

Students in the **MA in Musicology** complete the following requirements:

- ENV4001H: *Graduate Seminars in Environment and Health* (0.5 FCE).
- One elective course (0.5 FCE) from the School's list of approved electives below.
- Additional 0.5 FCE completed through either an additional approved elective, an individual reading and research course, or ENV5555Y: Research Paper. Courses (including Special Topics) that have an environment and health focus but are not included in the School's approved list can be counted as an elective, pending approval from the Graduate Associate Director.

Note: Master's students who are enrolled in a coursework-based degree must complete 30% of their program requirements within their collaborative specialization.

Students in the **MA in Music Theory** complete the following requirements:

- ENV4001H: *Graduate Seminars in Environment and Health (0.5 FCE)*.
- One elective course (0.5 FCE) from the School's list of approved electives below.
- Additional 0.5 FCE completed through either a second approved elective, an individual reading and research course, or ENV5555Y: Research Paper. Courses (including Special Topics) that have an environment and health focus but are not included in the School's approved list can be counted as an elective, pending approval from the Graduate Associate Director.

Note: Master's students who are enrolled in a coursework-based degree must complete 30% of their program requirements within their collaborative specialization.

Master of Music (Applied Music and Health)

Students in the **Master of Music in Applied Music and Health** program complete the following requirements:

- ENV4001H: *Graduate Seminars in Environment and Health (0.5 FCE)*
- One elective (0.5 FCE) from the [CSEH course list](#).
- 1.5 FCE completed through MUS7407H and MUS4112Y, provided there is an environment and health related component to each course.

Note: Master's students who are enrolled in a coursework-based degree must complete 30% of their program requirements within their collaborative specialization.

Doctor of Philosophy (PhD)

Music PhD students enrolled in the Collaborative Specialization in Environment & Health complete the following requirements:

- ENV 4001H: Graduate Seminars in Environment and Health (0.5 FCE)
- One elective (0.5 FCE) from the [approved CSEH course list](#)
- Complete a thesis on a theme within environment and health. Normally, the thesis committee will include a supervisor from the student's home department who holds a graduate faculty membership (GFM) in the School of the Environment. If the student's primary thesis supervisor does not hold a GFM in the School of the Environment, the School's Director will either initiate the process of assigning a GFM to the primary supervisor or review the composition of the thesis committee to ensure it has appropriate expertise. *A digital copy of the [final thesis](#) must be submitted to the School of the Environment prior to convocation.*
- All PhD students are required to give an oral presentation of their doctoral research as part of the School's Environment Research Day, which is held once per year in the Spring.
