

**Physics  
MSc, PhD**

**School of the Environment: Collaborative Specialization in Environmental Studies (CSES)**

Below you will find the requirements for students in the Physics MSc and PhD who are completing a Collaborative Specialization in Environmental Studies. Although this document can provide you with guidance for completing the specialization, note that the [School of Graduate Studies Calendar](#) is the authoritative source for degree requirements.

Master of Science (MSc)- Thesis Stream

Physics MSc students enrolled in the Collaborative Specialization in Environmental Studies complete the following requirements:

- ENV1001H: *Environmental Decision Making* (0.5 FCE)
- One elective (0.5 FCE) from the [CSES course list](#).
- Thesis written on an environment related topic. *A digital copy of the [final thesis](#) must be submitted to the School of the Environment prior to convocation.*

It is recommended that each thesis committee will require a supervisor from the student's home department and at least one other member from another graduate unit, both of whom are also members of graduate faculty in the School of the Environment.

Master of Science (MSc)- Research Report/Project Stream

Physics MSc students enrolled in the Collaborative Specialization in Environmental Studies complete the following requirements:

- ENV1001H: *Environmental Decision Making* (0.5 FCE)
- One elective (0.5 FCE) from the [CSES course list](#).
- PHY3400Y: Selected Topics in Physics (1.0 FCE) which counts towards the CSES research paper requirement, provided there is an environment related component. *A copy of the [final research paper/project](#) must be submitted to the School of the Environment prior to convocation.*

Doctor of Philosophy (PhD)

Physics PhD students enrolled in the Collaborative Specialization in Environmental Studies complete the following requirements:

- ENV1001H: *Environmental Decision Making* (0.5 FCE)
- One elective (0.5 FCE) from the [CSES course list](#).
- Complete a thesis on an environmental theme. Normally, the thesis committee will include a supervisor from the student's home department who holds a graduate faculty membership (GFM) in the School of the Environment. If the student's primary thesis supervisor does not hold a GFM in the School of the Environment, the School's Director will either initiate the process of assigning a GFM to the primary supervisor or review the composition of the thesis committee to

## SCHOOL OF THE ENVIRONMENT

ensure it has appropriate expertise. *A digital copy of the [final thesis](#) must be submitted to the School of the Environment prior to convocation.*

- All PhD students are required to give an oral presentation of their doctoral research as part of the School's Environment Research Day, which is held once per year in the Spring.
