

**Sustainability Management
MScPI, PhD****School of the Environment: Collaborative Specialization in Environmental Studies (CSES)**

Below you will find the requirements for students in the MSc Sustainability Management program who are completing a collaborative specialization in Environmental Studies. Although this document will provide you with guidance for completing the specialization, note that the [School of Graduate Studies Calendar](#) is the authoritative source for all degree requirements.

Master of Science in Sustainability Management (MScSM)

MScSM students complete a total of 8.0 FCEs. Students enrolled in the Collaborative Specialization in Environmental Studies would complete the following requirements:

- 9.0 FCEs required MScSM courses of which:
 - SSM1110H satisfies the CSES internship requirement. *Upon completion of the placement students shall submit to a letter of performance assessment issued by their direct internship supervisor to the Graduate Administrator.*
 - SSM1100Y/SSM1101Y satisfies the CSES research paper requirement. *A copy of the final research paper must be submitted to the School of the Environment prior to convocation.*
- 4.0 electives of which must include the following Environmental Studies collaborative specialization requirements:
 - ENV1001H: Environmental Decision Making (0.5 FCE)
 - One elective (0.5 FCE) from the [CSES course list](#).
