APPENDIX 1

Concerning the requirements for Master’s and Doctoral degree students registered in the Department of Geography and in the Environment and Health Collaborative Program at the School of the Environment.

Master’s degree (M.A; M.Sc.) in Geography

**Master’s Requirements Thesis Stream (total of 1.5 FCE):**
Master’s students who wish to qualify for notation of Collaborative Environment and Health Program completion are required to complete a total of 1.5 FCEs as follows:
- GGR 1105H or GGR 1200H;
- ENV 4001H, plus one half-credit (0.5 FCE) course elective in geography from the School of the Environment list of approved courses;
- Write a thesis in the home department on an environment and health related topic. Each thesis committee will require a supervisor from the student’s home department and at least one other member from another graduate unit, both of whom are also members of graduate faculty in the School of the Environment. A copy of the final thesis must be submitted to the School of the Environment prior to convocation.

**Master’s Requirements Research Paper Stream (total of 3.0 FCE):**
Master’s students who wish to qualify for notation of Collaborative Environment and Health Program completion are required to complete a total of 3.0 FCEs as follows:
- GGR 1105H or GGR 1200H;
- 1.5 FCE Geography electives;
- ENV 4001H, plus one half-credit (0.5 FCE) course elective from the School of the Environment list of approved courses;
- Write a major research paper in the home department on an environment and health related topic. A copy of the final research paper must be submitted to the School of the Environment prior to convocation.

The Collaborative Program requirements may be counted as electives towards master’s degree program requirements.

Doctoral degree (Ph.D.) requirements in Geography

**Ph.D degree in Physical Geography (total of 2.0 FCE):**
Doctoral students who wish to qualify for notation of Collaborative Environment and Health Program completion are required to complete a total of 2.0 FCEs as follows:
- GGR 1200H;
April 2, 2013

- 0.5 FCE Geography elective;
- ENV 4001H, unless already taken at the master's level, plus one half-credit (0.5 FCE) course elective from the School of the Environment list of courses;
- Plus present a seminar in either of the two Seminar Series run by the School of the Environment (the Environment Series or the Environment and Health Series), or deliver a brief talk at the School’s Research Day;
- Write a thesis in the home department on an environment and health related topic. Each thesis committee will require a supervisor from the student’s home department and at least one other member from another graduate unit, both of whom are also members of graduate faculty in the School of the Environment. A copy of the final thesis must be submitted to the School of the Environment prior to convocation.

**Ph.D degree in Environmental/Resource Management/Urban/Economic/Historical/Cultural/Social Geography (total of 3.0 FCE):**

Doctoral students who wish to qualify for notation of Collaborative Environment and Health Program completion are required to complete a total of 3.0 FCEs as follows:

- GGR 1200H;
- 1.0 FCE Geography elective;
- ENV 4001H, unless already taken at the master’s level,
- plus one half-credit (0.5 FCE) course elective from the School of the Environment list of courses;
- 0.5 FCE elective in any subject;
- Plus present a seminar in either of the two Seminar Series run by the School of the Environment (the Environment Series or the Environment and Health Series), or deliver a brief talk at the School’s Research Day;
- Write a thesis in the home department on an environment and health related topic. Each thesis committee will require a supervisor from the student’s home department and at least one other member from another graduate unit, both of whom are also members of graduate faculty in the School of the Environment. A copy of the final thesis must be submitted to the School of the Environment prior to convocation.

The Collaborative Program requirements may be counted as electives towards doctoral degree program requirements.
